What Is Put in the Child's Lunch Basket or on the Home Lunch Table—Suggested Menus From Department of Agriculture—Half-worn Costumes Made Into Newest Styles—To Launder a Lace Waist.

### WHAT TO FEED THE CHILDREN.

The department of agriculture has enlisted in a movement to preserve the health of children by advising their mothers just what to put in the lunch basket or on the home lunch table. Not only mothers, but many of the educational authorities in the various states have written to the department to inquire just what constitutes

a satisfactory diet for children. The following suggested menus, according to Uncle Sam, will give the children as nearly as is practicable in such a meal the proper proportions of the different classes of food which are regarded as of sufficient nutritive value.

First Sandwiches with sliced tender meat for filling; baked apples, cook-

ed or a few lumps of sugar. 2. Slices of meat loaf or bean loaf, bread and butter sandwiches; stewed fruit, small frosted cake. 3. Crisp rolls hollowed out and filled with chopped meat or fish, moistened and seasoned, or mixed with salad dressing; or berries; cake. 4. Lettuce or celery sandwiches; cup custard; jelly sandwiches. 5. Cottage cheese and chopped green pepper sandwiches, or a hot of cream cheese with bread and butter sandwiches; fruit cake. 6. Hard boiled eggs; crisp baking powder biscuits; celery or radishes; brown sugar or maple sugar sandwiches. 7. Bottle of milk; thin corn bread and butter; dates; apple. 8. Raisin or nut bread with butter; cheese, orange; maple sugar. 9. Baked bean and lettuce sandwiches; apple sauce; sweet chocolate.

### HALF-WORN COSTUMES.

Fashions change so rapidly that women of limited means are often sorry they have not been able to keep up with these periodic and quick movements. A French woman, whose husband was among the first to respond to his country's call saw her opportunity and seized it. She made the fact known that she was clever at adapting clothing, and that she was ready to exercise her skill on reasonable terms. Plain materials are easily added to, the introduction of contrast is often permissible, and the present vogue for trimming has greatly facilitated her enterprise. The tunic was one of her best resources when she first started her business. Now she finds that the contrast hip yoke and the panel serve her very well.

Frequently the bargains come in admirably for her purposes, and she is always ready not only to assist in adapting but to give her aid in choosing from the big stocks of rich and beautiful material which are shown. A serge gown done up recently had the last season's bodice remodeled into a bolero arranged over an under vest made of a piece of rich silk picked up at a sale and sold off because this winter's patterns will not be brought out again for another season.

### WASHING LACE WAIST.

Put the waist into a two-quart glass fruit jar. Pour in half a cup of corn meal, then enough gasoline to cover, screw on the cover very tight and let it stand about 15 minutes. Then shake it up and down, first one way then the other, until the gasoline looks real dirty. Squeeze all the gasoline out of the waist by gentle pressure; rinse it in a basin containing fresh gasoline and hang in the sun to dry. It will look like new.

### TODAY'S BEAUTY HINT

It is not necessary to shampoo quite so frequently if your hair is properly cleansed each time by use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers may be prepared very cheaply by dissolving a teaspoonful of camphor, obtained from your druggist, in a cup of hot water. This rubbed into the scalp creates a thick lather, soothing and cooling in its action, as well as beneficial to the hair, and cleans it while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.—Advertisement.

### MEETS DEATH IN STREAM.

Kemmerer, Wyo., May 22.—Joe Malou, a miner, was found dead yesterday on the edge of a small stream near Sublet, nine miles from here, where he had evidently drowned. Malou had been dead for several days. He was last seen Sunday staggering along the edge of the stream, which is only three feet wide. He leaves no relatives, so far as known here.

## POSITIONS FOR THE GRADUATES

Since the commencement exercises were held, the Smithsonian Business college has furnished positions for sixteen of its 1916 graduates. This, President Smith of the college stated, was due to the ever increasing demand of business men for properly trained and educated young men and women to fill important positions in business offices in Ogden throughout the country. The names of the graduates already placed are as follows:

Vernal Jones, Ogden Packing company; Ogden; Chester Myers, Consolidated Music company, Ogden; Andrew Hansen, Murtaugh, Idaho; Con W. Hickey, George A. Lowe company, Ogden; Fred W. Dalton, Miller Floral company, Farmington, Utah; Vinnie Lawrenson, assistant postmaster, Downey, Idaho; Ben G. Brown, Richardson & Hunt, Ogden; Margaret Foley, Bradstreet Agency, Clift Greenwell, Ogden; Naomi Kimmerer, Attorney Jensen, Amy Porter, T. C. Hoyt Agency, Glen Stone, U. S. city office; Irma Tracy, Attorney Pratt; Anna T. Wallace, Home Furniture company; Stella Winfrey, secretary bank, Ashton, Idaho; and Otto Hansen, Examiner, Ogden.

### SPECIAL PULLS OUT.

LEAVING STAR HERE. Salt Lake, May 22.—Lucy Gates, prima donna of the opera company, missed the special train which she had engaged to carry the company to Provo for last night's production of "Faust," but caught it by automobile after an exciting chase of nearly a mile.

The train had been scheduled to leave promptly at 5:15 o'clock and Miss Gates and all the members of the company were at the Ogden depot on time. The star and her manager, C. M. Brown, checked off the list to make sure that everybody was there and supplied with tickets and then went into the office to give a check for the amount of the railroad fare. It was 5:15 and the train pulled out "on the dot."

Miss Gates's father, Jacob Gates, rushed into the depot with the information that the train had pulled out, and by the time Miss Gates and Manager Brown could reach Mr. Gates's auto the special had a good start. The chase continued for three-quarters of a mile. Then members of the company standing on the rear car platform took in the situation, the motor-man received the signal to stop and in another minute the train continued its journey with none left behind.

SHOOTING OCCURS AT CHRISTENING PARTY. Rock Springs, Wyo., May 22.—Paul Glenchar is in the state hospital here with a bullet in his brain. P. Kranzski, 7 years of age, has a serious wound through the hips and Peter Rochi is in the county jail at Green River as the result of an affray at the Kranzski home near Superior during a christening party.

During the christening a quarrel started between Glenchar and Rochi in the back yard. Glenchar was shot in the head, but, despite the fact that the bullet entered his brain, was able to take refuge in the house. He fled into a dry room in which the Kranzski boy was sleeping. Rochi followed, and, attempting to again shoot Glenchar, sent a bullet through the sleeping boy's hips. Glenchar is not expected to recover.

"Health Is the First Wealth"

The rich man suffering from asthma or other lung trouble knows this even better than the poor man thus afflicted. Either may be able to obtain relief by using Eckman's Alternative, a preparation containing calcium chloride, which for more than twenty years has been giving widespread satisfaction in such cases.

Of course, its use should be seconded by rest, pure food and fresh air. For medicine can be of much help where these provisions of nature are not made use of. But in numerous instances where they have not produced desired results, Eckman's Alternative has furnished the missing link in the chain.

It contains no poisonous or habit-forming drugs, so a trial is safe. At your druggist's. Eckman Laboratory, Philadelphia.

### SCHOOL PAPER MAKES A HIT IN BRIGHAM.

Brigham City, May 22.—The Box elder high school placed in circulation Saturday the spring number of the Boomerang, the school paper, and the number was one of the most creditable ever published by the school. The book was printed and bound in Salt Lake and contained ninety-two pages, illustrated with half-tones of the graduates, buildings, faculty and photographs of notable events of the school during the past year.

The staff responsible for the success of the last number of the Boomerang is as follows: William Call, editor in chief; Vern Fridah, associate editor; Rae Knudson, literary; Stella Young, school notes; Arlo Anderson, humor; Verna Hansen, associate editor; Lydia Holmgren, literary; Ruth Hargis, staff artist; Lamar Koford, business manager; Carl Lee, athletics; Earl Walker, exchange manager; Herbert McGuire, typist; Mabel Anderson, staff artist; Lamont Glover, assistant manager.

### SKULL IS FRACTURED IN AUTO ACCIDENT.

Kemmerer, Wyo., May 22.—As the result of the second automobile accident here within a week, James Edmonds, 35 years of age, lies in a dying condition at the Merers' hospital with a fractured skull. The accident occurred at 5 o'clock yesterday afternoon, when the Walter Haddenham car, driven by Mr. Haddenham's 16-year-old son and containing Edmonds and the two little Haddenham girls, turned turtle on the Frontier road a half mile from here.

Young Haddenham was trying to scare a dog from the road by reversing dangerously near a ditch. When the dog ran in front of the car and was run over the boy lost control and the car ran off the road into a deep

cut, turning completely over and righting itself. The girls were not hurt, but young Haddenham received a badly sprained wrist. Edmonds was thrown violently from the car and his skull fractured. He was rushed to the local hospital, where he has since been in an unconscious condition.

### MYSTERY SURROUNDS DEATH OF OLD MINER.

Provo, May 22.—A stranger, believed to be W. H. Harrison, died this morning at the county infirmary. He was brought from Gility, Spanish Fork canyon, Saturday, in an unconscious condition.

County Physician W. T. Hasler diagnosed the man's ailment as uraemic poisoning. He had been ill at Gility for several days, staying in a box car. The man appears to have been a prospector, about 60 years of age.

The reason for believing his name was Harrison is that several envelopes addressed to W. H. Harrison at Radnor, via Morley, Alberta, Canada, were found on him. One was from the Physical Culture Restaurant company, 1123 Broadway, New York, and another from the Woman's Gold Mining company, Cripple Creek, Colo. They were postmarked 1903-4.

### INDIAN MURDERER IS REPORTED DEAD.

Pocatello, Ida., May 22.—It is now reported that Frank Perry, the Wyoming Indian who shot and killed his wife and seriously wounded her sister and another man last Friday, was shot to death by the Fort Hall Indian police when he took refuge behind a barrier and fired into their midst. It was at first reported that he had committed suicide in preference to being taken alive. An investigation by the authorities will probably be made.

## An Easy Way to Increase Weight

### Good Advice for Thin Folks

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

There is a preparation known to reliable druggists almost everywhere which seemingly embodies the missing elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This modern treatment is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through regenerative, re-constructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to the starved, broken-down cells and tissues of your body. You can readily picture what result this amazing transformation should produce as with increased weight the cheeks fill out, hollows about neck, shoulders and bust disappear and from 10 to 20 pounds of solid, healthy flesh is added to the body. Sargol is absolutely harmless, inexpensive, efficient. A. R. McIntyre and other leading druggists of this vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported care should be taken about using it unless a gain of weight is desired.—Advertisement.

### NOTED YOUNG EDITOR DIES IN WYOMING.

Cheyenne, Wyo., May 22.—The body of Herbert Rock Schneider, who at 23 years of age had attained the highest salary in journalistic position in Wyoming, today was sent to Merton, Wis., his former home, his widow accompanying the body. Mr. Schneider died from gastric ulcer at the age of 23 years, a month after he resigned the managing editorship of the Wyoming Labor Journal, organ of the United Mine Workers of America in this state, which place he held for five years. He had just installed machinery for an independent printing house when he was stricken.

### POSTOFFICE TO ADVANCE.

Richfield, May 22.—Postoffice Inspector Christiansen of Ogden has just completed a check of the Richfield office and he found such an increase in the business that he will recommend that the office be placed in the list of second-class offices. This will materially increase the salary of Postmaster Morrison, who has given satisfaction in his administration of the office affairs. It will also increase the number of employees. The

## Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 35 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but experiments, and endanger the health of Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## The Kind You Have Always Bought

Bears the Signature of

Chas. H. Fletcher  
In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

change will, it is expected, go into effect July 1.

Some cynic remarks that the more indignation a girl can generate when a young man tries to kiss her the more she enjoys it.

## IDEAL OUTFIT FOR THE SUMMER GIRL

You are rich

You have twenty-four hours—that's all the time there is.

You have as much as King or Potentate.

There's nobody richer in time than you.

Nor can anyone enjoy a better cup of coffee.

For when you drink Folger's Golden Gate it's the best you can buy.

J.A. Folger & Co. San Francisco

A Question of Beauty is always a question of complexion. With a perfect complexion you overcome nature's deficiencies.

### Gouraud's Oriental Cream

renders to the skin a clear, refined, pearly-white appearance—the perfect beauty. Healing and refreshing. Non-greasy. Send 15c. for trial size.

FERO, T. HOPKINS & SON, 37 Great Jones St., New York

Our Want Ads.—Talk for themselves. They speak results—Try One and see if it don't break the Record in Bringing You Results.
